

Pipeline Cleaning Pigs

Swab Series 1, 2 and 4 lb/ft³ (16, 32 and 64 kg/m³) – Available with flat or tapered nose.
Maximum flexibility to negotiate extreme reductions in cross sectional diameter and tight bends.

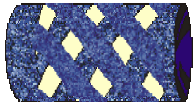

5B Bare Swab
Polly Pig
(BS)

The Bare Swab Polly Pig offers the operator a pig with maximum flexibility to negotiate extreme reductions in cross sectional diameter and tight bends in pipelines. Available with flat or tapered noses, the swab is the most flexible Polly Pig available.

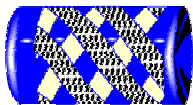

5C Hydropig Criss
Cross Polly Pig
(HPCC)

The Hydropig Polly Pig offers the operator a pig with maximum flexibility to negotiate extreme reductions in cross sectional diameter and tight bends in pipelines. The Hydropig's flexible blue coating gives an extra measure of abrasion to the swab body; the Hydropig is also available with a flat or tapered nose.

5D Hydropig
Silicone Carbide
Polly Pig
(HPSC)

The Hydropig Silicone Carbide Polly Pig offers the operator a scraping pig with maximum flexibility to negotiate extreme reductions in cross sectional diameter and tight bends in pipelines. Manufactured with chips of silicone carbide embedded in the coating, the Hydropig Silicone Carbide is capable of light duty scraping in pipelines. The Hydropig Silicone Carbide Polly Pig is also available with a flat or tapered nose.

5E Hydropig Wire
Brush Polly Pig
(HPWB)

The Hydropig Wire Brush Polly Pig offers the operator a scraping pig with maximum flexibility to negotiate extreme reductions in cross sectional diameter and tight bends in pipelines. Manufactured with straps of flame hardened wire brush, the Hydropig Wire Brush is capable of light duty scraping in pipelines. The Hydropig Wire Brush Polly Pig is also available with a flat or tapered nose.
