

## Lowering-In Cradles

### Rubber-Tired

- Heavy-duty frame adjust to match pipe sizes
- Rubber guide rollers keep pipe centered on large, rubber-tired cradle wheels
- Coated and wrapped pipe can be handled without danger of damage. Pipe is guided into ditch as the tractor moves along the line
- Eliminates the need for multiple sideboom tractors, belt-men, and the “leap-frogging” of tractors.

For Pipe Sizes (inches)	Height (inches)	Length (inches)	Width (inches)	Weight (inches)	Cubage (cu. ft.)
4 - 12	64	66	31	1670	62
12 - 24	78	62	48	2160	116
20 - 36	96	78	58	3460	175
36 - 42	96	78	63	3600	185
